SEE YOU AT THE SYMPOSIUM

One of the most highly anticipated events of the year, Display Week's International Technical Symposium is an unrivaled, in-depth convention of some of the industry's most well-respected scientists, researchers, academics, and business and industry leaders. This year's **special topics** are right on trend with today's hottest, fastest-growing technologies and applications that are changing our world right before our eyes: augmented reality, virtual reality and mixed reality; and bendable, foldable rollable displays. Nowhere else will you have access to such a high-caliber collection of the world's brightest minds sharing the newest thinking.

STAYING ON TRACK

Getting ahead in the electronic display industry is no easy feat - unless you're on the right track. The Business Track, that is.

The Display Week Business Track is the industry's biggest and most important conference, designed to answer your most pressing questions, and provide insights and forecasts that will give you the knowledge and perspective you need to navigate the display arena. Hear presentations by 20 different analysts from 11 of the world's top research firms, including GfR Research, IDC, DSCC, IHS Markit, Yole Développement, Veritas et Visus; as well as renowned keynotes and panelists from leading global companies.

Organized by DSCC, the four-conference series includes our newest offering, the Foldable Display Market Focus Conference; the Investors Conference; the Automotive Display Market Focus Conference and the Business Conference.

This year, we've also created the Automotive "Hot Topic" Track, a special registration package that provides you with access to the Automotive Market Focus Conference, as well as all other automotive display and HMI programming throughout the week. Start your engines and [register today.](#)
