

CAMERAS, **ACTION!** Are you ready for <u>Display Week 2023</u> – the world's most important global event for the electronic display and visual information technologies industries?

We're ready for you! From May 21-26, we're rolling out the red carpet at the Los Angeles Convention Center to

celebrate Display Week's 60-year anniversary by bringing you a star-studded extravaganza

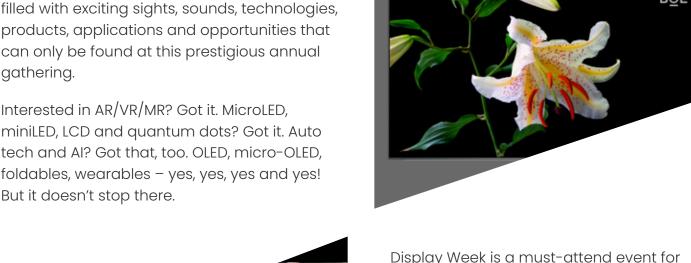

products, applications and opportunities that can only be found at this prestigious annual gathering. Interested in AR/VR/MR? Got it. MicroLED, miniLED, LCD and quantum dots? Got it. Auto tech and AI? Got that, too. OLED, micro-OLED, foldables, wearables – yes, yes, yes and yes! But it doesn't stop there.

ever-growing, diverse fields related to

Display Week is a must-attend event for anyone and everyone connected to the displays and imaging technologies. With an exhibition featuring over <u>200 exhibitors</u> showcasing the latest innovations, premarket and hands-on demos, a worldrenowned <u>technical symposium</u> featuring more than 500 presentations and 87 technical sessions, exclusive conferences, keynote addresses from business icons and special events – Display Week is the

place to see and be seen. "Born" in Los Angeles in 1963, Display Week has a rich history of unveiling what's

new and what's next and, as technology continues to expand, so does this one-ofa-kind experience. We'll be celebrating this awesome evolution with the Display Week

2023 Diamond Jubilee Showcase and a special networking event. So what are you waiting for? Step right up and register today! You'll be glad you did. See you soon.

ATTRACTIONS

International Technical Symposium (May 21-26) One of the most highly anticipated events of the year, Display Week's International

are taking tech to the next level. Register now.

Technical Symposium is an unrivaled, in-

depth convention of some of the world's most respected scientists, researchers, academics, and business and industry leaders. This year's special topics are right on trend with today's hottest technologies and applications that are changing our world right before our eyes: <u>augmented reality/mixed reality/virtual reality;</u>

I-Zone (May 23-25)Supported by **Eink**. Display Week's I-Zone – which can be found right alongside the exhibition in the main hall - is where you'll find the newest concepts, nascent technologies and hands-on demos of products that haven't even hit the market yet. Exhibitors have been specially selected through a competitive process and include small startups, universities, think tanks and inventors from around the world. Keep your eyes on the I-Zone to find out what you've been missing. I-Zone winners will be announced on the show floor on Wednesday morning (May 24).

The Society for Information Display (SID) has been powering the display technology industry since its inception in 1962. It is the only professional organization dedicated to the electronic display and visual information technology industries, and plays a vital role in advancing the plethora of interwoven discoveries and applications from concept and research to manufacturing and market. As a worldwide platform, SID brings together the multiple facets of these industries to fully support the imaging and display ecosystems, and help address growing consumer demand for seamless digital experiences through smart phones, televisions, mobile computers, immersive gaming and entertainment applications, online platforms, electric cars, wearables, smart homes, and an ever-expanding menu of devices and uses that have become engrained in the way we live, work and play. Additionally, SID provides a unique platform for industry collaboration, communication and training in all related technologies while showcasing the industry's best new products at its annual International Symposium, Seminar & Exhibition (known as Display Week). To promote industry and academic technology development, and educate consumers, SID hosts more than 10 conferences a year, including Display Week, which unites industry and academia all under one roof to demonstrate technology that will shape the future. The organization's members are professionals in the technical and business disciplines that relate to display research, design, manufacturing, applications, marketing and sales. SID's global headquarters are located at 1475 S. Bascom Ave., Ste. 114, Campbell, CA

1475 S. Bascom Ave. # 114 Campbell, CA 95008-4006 USA (408) 879-3901

The Society for Information Display started in Los Angeles in 1962, and it's where the first Display Week was held in 1963. As we return to the City of Angels, we invite you to join us to celebrate 60 years of discoveries with these DIAMOND 🌑 JUBILE free, special events. **Display Week 2023 Diamond Jubilee Showcase** A special exhibit of historical artifacts (May 23-25)Supported by **BOE** 3 Diamond Jubilee Networking Event (May 23, 5-6:30 p.m.) Supported by BOE | 700 and 📐 DELTA 🗑 **2023 Display Industry Awards**
